IMMADI SIVA HARSHITH NAIDU

Hyderabad, Telangana

7989069894 munnasivaharshithnaidu@gmail.com Siva Harshith SivaHarshith1303

Education

Degree	Institute/University	Board	CGPA/Percentage	Year
B.Tech CSE	Anurag University	Anurag University	9.25 (Till 6th Sem)	2021-2025
Senior Secondary	Narayana Junior College	TSBIE	97.8%	2021
Matriculation	Narayana Concept School	SSC	10.0	2019

Experience

- **ShiderTech - Software Developer Intern (Dec 2023 - May 2024)** Engineered in real-time projects for the customer service team, reducing average response through the implementation of efficient coding practices and troubleshooting methods that enhanced overall application performance and software quality.

Projects

- **Bank Management System**
  Engineered a real-time web-based application that enables seamless online banking transactions.
  – Implemented JDBC API to enhance database information presentation, resulting in a faster data retrieval process, significantly improving system performance.
  – Engineered a dynamic website utilizing **HTML, CSS, Java, JSP, and Servlets** optimized site performance, resulting in increase in user engagement , employed **MySQL** for robust data managment.
- **StockScout**
  Developed a comprehensive tool that automates the extraction of financial data for publicly traded companies.
  – The application gathers key financial metrics and statements from Screener source, providing users with a detailed and organized Excel report.
  – Leveraged **Python, Web Scraping, and Pandas** to efficiently extract, process, and analyze data.
- **Phone Directory**
  A real time directory storing the phone numbers,names and email id of the people.
  – Utilized **C** language and facilitated users to store contacts of their friends,family and any other people.
  – **Data Structure Used : Linked List,structures.**
- **Plot Pulse**
  Developed and launched a responsive and user-friendly real estate website for Plot Pulse Real Estate.
  – The website features detailed information about the company's services, an intuitive contact form for capturing user inquiries, and seamless data integration with Google Sheets for efficient data management
  – **Technologies Used : HTML,CSS,JavaScript.**

Achievements

•Secured a global rank of 355 out of 22000+ participants in CODECHEF STARTERS 134.
•Secured a global rank of 368 out of 20000+ participants in CODECHEF STARTERS 85.
•Secured 3rd Price in Coders Unite (Coding Contest Conducted by GeeksforGeeks).

Technical Skills

–**Programming Languages** Java , C, Python
–**Relevent Coursework**: Data Structures & Algorithms, Object Oriented Programming, Database Management System, Computer Networks .
–**Soft Skills**: Analytical Problem Solving, Flexibility in Adapting to New Challenges, Effective Presentation and Communication Skills

Certifications

Java With DSA Apna College CCNA-I CCNA-II

Area of Interest

Data Structures and Algorithms **Web Development** **Networking**

Coding Profile

CodeChef LeetCode GeeksforGeeks

Positions of Responsibility

–**Team Lead - Smart India Hackathon 2023** Participated & secured 6th position out of 250+ teams in SIH 2023 by developing Smart Toilet Model.

–**Vice President- Blockchain Club** Spearheaded TechHack3, a national-level hackathon, engaging over 80+ participants and fostering innovative blockchain solutions, enhancing club visibility and impact.
